

HENRY EBOSE ADEDUGBA

PROFESSIONAL SUMMARY

As a dedicated and ambitious frontend developer with a passion for creating intuitive user interfaces, I am thrilled to apply my skills and knowledge to contribute to innovative web projects. With over three years of hands-on experience in HTML, CSS, and JavaScript, I have honed my abilities in crafting visually appealing and responsive websites that enhance the user experience.

During my career so far, I have successfully collaborated with cross-functional teams to deliver engaging web applications, and my curiosity for emerging technologies drives me to stay up-to-date with the latest industry trends and best practices. I am particularly skilled in leveraging frontend frameworks like React and Next.js to develop dynamic and scalable interfaces.

My attention to detail and commitment to clean code enable me to create efficient and maintainable solutions. I am always eager to take on new challenges and seek opportunities for growth, both professionally and personally.

I am excited to join a forward-thinking organization where I can apply my frontend skills to contribute to cutting-edge projects, while also learning from experienced developers in a collaborative environment. I believe that my strong technical skills, coupled with my passion for creativity and continuous improvement, make me an ideal candidate to thrive as a frontend developer. In summary, I bring technical expertise, collaborative problem-solving, and a commitment to industry innovation.

WORK EXPERIENCE & PROJECTS

Centric Gateway – Frontend Developer,

04/2022 to Present

Projects

- I contributed to the revamping and occasional maintenance of the Seerbit Merchant Dashboard by designing and implementing user-friendly and responsive UI components. Additionally, played a key role in populating the UI through API integrations, with a focus on enhancing the user interface for streamlined transaction management, sales data analysis, and payment process optimization. The objective was to prioritize a seamless user experience tailored to meet the specific needs of merchants.
- I implemented the Transaction Search feature within the Seerbit Super Admin interface, empowering SeerBit's Customer Success Team with a seamless and efficient tool for querying merchant transactions. This enhancement optimizes workflow, allowing the team to effortlessly monitor and manage a diverse range of customer transactions. The system replaces manual tracking processes, contributing to increased operational efficiency.
- I revamped the Seerbit Front Store by strategically updating and restructuring the codebase using Next.js. Implemented optimizations for enhanced application performance, resulting in a more seamless and responsive user interface.
- I developed Seerbit - Pocket Dashboard web app, comprising Pocket Admin and Pocket Merchant dashboards. Pocket Admin provides comprehensive oversight for SeerBit's operations, enabling role assignments, access restrictions, transaction searches, and statistical analyses. Pocket Merchant offers similar functionalities tailored for individual merchants. I collaborated with web designers and backend engineers, using React.js, Redux, Typescript, and Tailwind CSS to ensure optimization for performance, resulting in a responsive, visually appealing, and user-friendly interface.
- I developed the Seerbit Partner web application, empowering partners to manage invited businesses, track transactions, and monitor commissions, providing real-time insights and streamlined business management.
- I developed the Seerbit Fund Management web application, offering Seerbit Merchants a comprehensive wallet service. The platform enables merchants to securely store, send, and receive funds, facilitating transactions within the Seerbit ecosystem and with external banks. This solution enhances financial management and promotes seamless fund transfers for merchants.

Jaroy Investments Limited – Frontend Engineer,

10/2019 to 03/2020

Projects

As a Frontend Engineer at Jaroy Investments Limited:

- I spearheaded the development of websites, ensuring precision and adherence to industry standards.
- I collaborated with clients to understand specific requirements and tailored solutions accordingly.
- I demonstrated flexibility by occasionally undertaking website maintenance based on client needs.
- I employed a client-focused approach to deliver websites that align with both business objectives and user expectations.
- I consistently applied best practices in web development for optimal functionality and user experience.

EXPERIENCES GAINED

As a Frontend Engineer with over 2 years of hands-on experience, I've demonstrated expertise in:

- Developing customized websites focused on delivering user-centric experiences, ensuring optimal usability and responsiveness.
- Proactively staying abreast of current technology trends to incorporate cutting-edge solutions and consistently applying industry best practices.
- Collaborating seamlessly with cross-functional teams to align development efforts with business objectives and brand standards.
- Implementing efficient and scalable code structures to enhance website performance and maintainability.
- Conducting thorough evaluations to identify and address usability issues, ensuring a polished and intuitive user interface.
- Working collaboratively with other developers to foster a knowledge-sharing environment.
- Adapting to evolving project requirements and consistently delivering high-quality solutions within specified timelines.

SKILLS

-HTML – CSS – JavaScript – React JS – Next JS
– React Native – Redux – Typescript – MySQL
– PHP – Tailwind CSS – SCSS/SASS – UI/UX design
(using Figma) – GIT hub -

EDUCATION

B.Sc. Computer Science

January/2017 to October/2021

Federal University of Agriculture, Abeokuta, Ogun State, Nigeria

- Member of the Nigeria Association of Computer Students (NACOS)
- Member of Computer Professionals Registration Council of Nigeria (CPN)

HOBBIES

-- Coding – Gaming (Video & Board) – Reading – Drawing – Eating – Music (Singing & Listening) – Meeting New People – Watching movies
